Are you ready to be inspired and uplifted?

You'll have a positive power infusion when you hear Edie Hand speak. She captivates with her Southern charm, makes you laugh out loud, and inspires you, to declare new ways that you can be an even better parent, spouse, salesperson, or manager. I admire her perseverance as a cancer survivor, and applaud how she guides her Foundation, to help others dream, achieve and exceed their goals for a better life!

Edie Hand is a professional woman with a heart of gold! She is constantly putting people together who work for the good. I won't say she is a motivational or inspirational speaker, because, just knowing her, personally, she IS motivational and inspirational. Within minutes of meeting Edie, you know you are in the presence of a very special person.

She gives and gives and, even if she's tired, she goes on because her aim in life is to teach and share goodness through her speaking. She has her own foundation which she raises funds for as well as St. Jude Children's Research Hospital, founded by my late father, Danny Thomas. She has a driving spirit and it makes everyone want to do more for mankind, too.

Edie is like the great saying, "One never stands so tall than when one stoops to help another."

Board Member St. Jude Children's Research Hospital

Edie loves people. In her books, in her speaking, such as at the Charlie's Angels event and in her personal relations with an amazing cast of friends; she exudes the marvelous richness of human experience. Despite her talents she is not standoffish. People just *like* her.

Edie Hand has proved to be a very motivational, fun, entertaining speaker at numerous speaking engagements. Her story is worth telling and she is very passionate about telling it. Her laughter is infectious and her smile is contagious. She has spoken to the Southeastern Bankers Association in Tunica with a topic of ABC's of Selling with Etiquette which provides great advice and insight for the corporate world.

I have also heard her speak to the Pilot Club of Jasper and to the East Walker Chamber of Commerce. She always throws in a sprinkle of her life experiences which are very heart warming. She is very inspirational and leaves you with a good feeling when she finishes. I would highly recommend Edie Hand for any speaking engagement.

I had the pleasure of hearing Edie Hand speak at a fundraising event. She gave a heartfelt, uplifting talk in her unique Southern style that incorporated her own family stories and tragedies in a way that uniquely inspired all in attendance to want to do more to support ovarian cancer research. I instantly became one of her biggest fans.

Edie Hand is one of the most versatile and inspiring speakers I've ever booked. We can always use someone to look us in the eyes and to tell us we can do it!

The author of numerous powerful books, Edie Hand, gave a presentation with inspiring detail about her life, her personal struggles, and growing up with three brothers in small town Alabama.

Her advice? Take the world by storm and always strive for a better community. However, it's really impossible to narrow down her eloquence to one phrase; she inspires, supports, and leaves her audience with a sense of belonging and worth. Choosing Edie for your event is MUST!
